

MISCELLANEOUS.

The famous Swiss Demme Trumpy case still occupies the European world, and, indeed, the American world. Dr Demme was tried for poisoning his father in law that was to be: his mother in-law to be, swore in court to criminal complicity in the poisoning, but he was acquitted. He then eloped with the daughter, Flora Trumpy. The bride and groom were then heard of by committing suicide by drowning in the Lake Geneva. The supposed dead parties next were heard of at Milan, and arrangements were made to arrest them, when a despatch from the Consul announced that they had committed suicide by poison. Perhaps they will turn up again from water and poison to endure other ordeals.

A new poem by Mr. Tennyson, shortly to be published in England, is said to bear the name of "The Cruel Sea Captain," to be founded upon a circumstance related by Admiral Symmons (often denied) of the men of an English frigate commanded by a brutal officer. They laid their vessel alongside of a French man-of-war, folded their arms never stirred while broadside after broadside was poured into them, and thus went down—all on board perishing—with the British flag still flying.

"The Life of Caesar," by the French Emperor, is undone as fast as it is done. It is in fact, a sort of Penelope's web. The Paris correspondent of the Courier des Etats Unis says, though this magnum opus is meant to see the light in January, it cannot possibly do so; for each proof is so cut up by the imperial author that the matter has to be set up again and again to the number of half a dozen times. It is not really known when the book can come out.

The comparison of the bank returns made at the U. S. Treasury Department shows that the loans on the New York banks amount to eighty seven and a half per cent. of their capital, deposits and circulation, while the loans of the Massachusetts banks exceed their capital and deposits by fifteen millions.

Since the explosion of the mine to blow out the bulkhead, nothing has been done toward the completion of the Dutch Gap canal, which is un-navigable. General Butler left the front on a visit to Washington on Thursday night. General Grant accompanied him as far as Fort Monroe.

The total amount of National Bank currency issued to Dec. 31, is \$76,309,890. The issue of last week was \$1,410,420. Six hundred and eighty-one banks are now doing business under the National Banking Law.

A physician speaking of the frail constitution of the women of the present day, remarked that we ought to take great care of our grand mothers, because we shall never get any more.

Rev. Mark Trafton, of New Bedford, was robbed of his overcoat by a thief, to whom he addresses, through an advertisement, the following pertinent suggestion: "If the person who stole my overcoat from my hall on Sabbath evening will read the 'Methodist Discipline' which was in one of the pockets, he will learn something to his advantage."

Admiral Farragut is in Washington, and visited the President and Secretary of the Navy on Saturday. General Banks is also again there and Gens. Burnside and Bartlett.

A Northern exchange paper says:—Eighteen gallons of whiskey per month is thought to be too much for an officer's allowance.
